Sta. Mesa, Manila | 09618226623 | franchezkatingal@gmail.com | linkedin.com/in/franchezka-faith-tingal-b248b8296

## PROFESSIONAL SUMMARY

Information Technology graduate with a software development and UI/UX background, experienced in gathering requirements, analyzing user needs and feedback, and building user-friendly applications within Agile teams. Skilled at turning client needs into prototypes, flowcharts, and working software, and at communicating with both technical and non-technical stakeholders.

## WORK EXPERIENCE

### Lamina Studios

2026

#### UI/UX Design and Web Development Intern

- Conducted UI/UX research, usability analysis, and heuristic evaluations to understand user needs and improve the user experience.
- Translated requirements into Laravel web applications with authentication, CRUD, and role-based access control, using Radix UI, Tailwind CSS, and Vite for responsive interfaces.
- Designed dashboards, prototypes, and responsive web and mobile interfaces in Figma to communicate solutions to the team.
- Created Cypress tests for application modules to support quality assurance and verify expected behavior.

### Public Employment Service Office (PESO)

2023

#### Government Internship Program (GIP) Intern

- Assisted with administrative and employment-related tasks to support daily office operations.
- Organized and maintained documents and records for efficient retrieval and processing, supported office staff, and assisted clients with basic inquiries and requests.

## PROJECTS

### Globalinked: Linkage Agreement Monitoring System

2025 - 2026

#### Capstone Project | UI/UX Designer and Frontend Developer

- Communicated with clients to understand requirements and gather feedback, shaping the system's features and design.
- Delivered a web-based system for managing and monitoring international partnerships, with centralized MOU/MOA storage, categorization, lifecycle tracking, and real-time status updates.
- Collaborated with the development team in an Agile setup, contributing UI design and frontend development.

### Bus Ticketing System

2024

#### UI Designer and Database Designer

- Developed a web-based ticketing system using HTML, CSS, and PHP; designed the user interface, normalized database, and ERD.

### Eduisko

2023

#### UI Designer and System Flowchart Designer

- Built a C# (WPF) educational toolkit with note-taking and focused study session tools to support students' productivity.
- Designed the user interface and created the system flowchart to define the application's structure and user flow.

## SKILLS

- Product & Requirements:** Requirements Gathering, User Needs Analysis, User and Client Feedback, Documentation, Process Flow Mapping, System Flowcharts, Agile Teamwork
- UX & Design:** Figma, UI/UX Research, Usability Analysis, Heuristic Evaluation, Wireframing, Prototyping, Responsive Design
- Development & Testing:** HTML, CSS, PHP, C#, Laravel, Tailwind CSS, Radix UI, Vite, WPF, Cypress, Visual Studio
- Data:** R Programming, Data Analysis, Data Visualization, Database Design, Normalization, ERD, Microsoft 365
- Professional:** Communication, Collaboration, Adaptability, Independent Learning, Attention to Detail

## EDUCATION

### Polytechnic University of the Philippines

Manila, Philippines

#### Bachelor of Science in Information Technology, Magna Cum Laude

2022 – 2026

### La Consolacion College Manila

Manila, Philippines

#### Senior High School, ABM Strand

2020 - 2022

## LEADERSHIP & ACTIVITIES

### PUP Global Ambassadors

2025 - 2026

### AWS PUP, Creative Content Developer

2023 – 2024

### AWS Philippines, Content Team Member

2023 – 2024

IT Students Research Colloquium 2025: Recognized as Speaker; Certificate of Appreciation (Capstone Team)
